NISEI MAY USE ABSENTEE BALLOT

Nisei citizens will be able to vote this year, but they will have to do so by absentee ballot. Since a general rule in common law forbids a person to vote in a state where he has been moved involuntarily, those in centers outside of their own states will have to use absentee ballot.

Those who want to vote should take action right away, stated the Project Attorney. They should write to their election boards in care of the county clerk to obtain the necessary information and the absentee ballots.

COMPARES GILA WITH HEART MT.

Community government in the Heart Mountain Center differs from the one here in that the Block Managers and the Council are under different divisions, each having its duties outlined to avoid duplication, according to Thomas Oki, chairman of the Heart Mountain Block Managers, who, with his wife and daughter, is visiting relatives.

Oki, Stanford graduate and Heart Mt. leader, is residing in Block 51 and expects to stay for a couple of weeks before returning to the Wyoming Center.

In Heart Mountain the Block Managers are under the operations division and have charge of the camp maintenance, Oki explained. The Council is under community management and takes care of all legislation. Both bodies (continued on page 5)
